FOR IMMEDIATE RELEASE

The Town of Wilton Launches First Wilton Economic Development Commission Website

The Town of Wilton is pleased to announce the launch of its initial Economic Development Commission website, www.wiltonecd.org. The website has been designed for businesses to use as a resource when considering a move to or an expansion in Wilton, CT. Our goal is to serve small businesses and larger corporations that are seeking an ideal location in the heart of Fairfield County. The Wilton EDC's mission is to promote a thriving business community at home in Wilton. The launch of a first website is an opportunity for decision makers and their families to explore both the business and lifestyle of Wilton as a community.

First Selectman Bill Brennan stated: "The Town of Wilton is grateful for the commission volunteers who have stepped up to lead this business development effort. Their mission and plans are taking shape now and we are pleased to have this great web site to support their work."

An intuitively designed navigation system of tabs and drop down menus enables the user to easily access current information on Wilton real estate, the school system, town services and facilities for businesses considering relocation to Wilton. Wilton EDC commission member, Chris Fuentes, notes, "Our objective with this site was to create a virtual library of resources and links to help businesses easily find the information they need when considering a move to Wilton. Wilton has created a foundation with WitonEDC.org to build on as a dynamic business tool."

The Wilton Economic Development Commission was established by the Board of Selectmen in July 2012 and is comprised of Wilton volunteer residents with experience in real estate, construction, town planning and land use. Wilton EDC chairman, Peter Gaboriault commented, "Our new website is a cornerstone of our work to help build new business opportunities in Wilton. We're looking forward to engaging our local businesses and residents in the future." For more about the WEDC, meeting schedules, news and resource links, please visit www.wiltonecd.org.
